Mr. Vincent Perez, Principal  
Buchholz High School  
5510 NW 27<sup>th</sup> Avenue  
Gainesville, FL 32606

Re: Buchholz Math Team Trust Fund

Dear Mr. Perez:

In honor of the tenure of Superintendent of Schools W. Daniel Boyd Jr. and his support for academic excellence as typified by the achievements of the Buchholz High School Math Team, my wife Phyllis and I are delighted to commit to donate \$15,000.00 as the initial contribution to the Buchholz Math Team Trust Fund; (the "Fund."). This commitment will be fulfilled over a period of five (5) years in annual installments of at least \$3,000.00, the first of which is attached, and subject to the following terms and conditions.

1. It is our intent that this fund be used solely to provide additional support for the activities of the Buchholz High School Math Team.
2. We designate Mr. Will Frazer, the current Math Team coach, to determine how and when Fund moneys are used consistent with the above-mentioned intent. When Mr. Frazer is no longer the Math Team Coach, successor coaches are designated to have this responsibility.
3. In the event that the math program established by Will Frazer is moved to another Alachua County High School and operates in a similar manner to that now existing at Buchholz High School, then the Fund shall support the activities of the Math Team at its subsequent location; however the name of the Fund shall be changed to identify the succeeding high school..
4. If the Math Team, either at Buchholz or at a subsequent school, is unable to achieve consistently high results in regional and national competitions, or is unreasonably restricted in its activities or efforts to promote the highest levels of achievement in math by Alachua County students, then our obligation to fund any remaining installments of this commitment shall terminate.
5. If the Math Team, either at Buchholz or at a subsequent school is no longer active, we would direct that any remaining Fund moneys be used in the support of advanced level math and science education at the last school at which the Math Team was active.

Yours truly,

Phyllis P. Warren

Michael E. Warren

cc: Dr. Dan Boyd, Superintendent of School  
Mr. Scott Ward, Assistant Superintendent of Business Services
